Do you have to pay for our service or do we receive any commission?

You don't have to pay us for our service

But a funder or broker we work with may pay us for introducing you to them. Different funders/brokers may pay us different amounts but it will typically be based on a fixed percentage of the amount borrowed. This percentage may vary according to different factors, for example: the amount of credit; the age or type of vehicle; the type of finance product; or the funder's assessment of the risk of lending. For your reassurance, we are not able to change the interest rate you pay in order to receive more commission from a particular broker or funder. Although rates and commissions may vary between our finance partners, our aim is always to secure finance from them which is appropriate to your circumstances and at the lowest interest rate available.

We are registered as a data controller with the Information Commissioner's Office under registration number ZA848716
